

It would be the BIGGEST mistake in the history of the FCC if you allow CELL PHONES on airplanes. I travel quite a bit and it would be horrendous to be sitting next to someone using a cell phone on an airplane. It is sickening as it is listening to them in the airport and on the plane before taking off and immediately when landing. I foresee passengers getting in arguments and even fights over cell phones. PLEASE DO NOT ALLOW CELL PHONES ON PLANES WHILE IN FLIGHT. DO NOT DO THAT. DO NOT DO THAT!!!!!!
